Dr. Pierce's Favorite Prescription

It is the best of all medicines for the cure of diseases, disorders and weaknesses peculiar to women. It is the only preparation of its kind devised by a regularly graduated physician—an experienced and skilled specialist in the diseases of women.

It is a safe medicine in any condition of the system. THE ONE REMEDY which contains no alcohol and no injurious habit-forming drugs and which creates no craving for such stimulants.

THE ONE REMEDY so good that its makers are not afraid to print its every ingredient on each outside bottle-wrapper and attest to the truthfulness of the same under oath.

It is sold by medicine dealers everywhere, and any dealer who hasn't it can get it. Don't take a substitute of unknown composition for this medicine or know's composition. No counterfeit is as good as the genuine and the druggist who says something else is "just as good as Dr. Pierce's" is either mistaken or is trying to deceive you for his own selfish benefit. Such a man is not to be trusted. He is trifling with your most priceless possession—your health—may be your life itself. See that you get what you ask for.

On Diamonds

We Save You Money.

We do not carry diamonds in stock because this would not pay in a town of this size, but we can do much better for customers by making special orders for exactly what they want. Dealers who carry the goods in stock necessarily have a considerable amount of capital tied up all the time and they must have larger profits to justify this outlay. We want only a slight profit, enough to pay for the time and trouble involved. Having been in the jewelry business for nearly twenty years we know where to buy the most reliable goods for the least money possible, and this is a most important point. We have an arrangement to get as many stones as you desire to select from.

We will save you from \$15 to \$25 (and sometimes more) on each \$100 invested in a diamond. We guarantee qualities to be exactly as represented, and behind our guarantee is that of the largest diamond cutters in America.

Without boasting about it we have sold a considerable number of very satisfactory diamonds in this way—the sensible and economical way.

Among other things Louisa may now boast of is the best country printing plant in Kentucky. The News was the first weekly newspaper in the State to install a Linotype and was one of fifteen established in the United States selected by the manufacturers for placing on trial a type setting machine of a new design.

The News could not have reached its present position without the support of the people. Its editor has ever aimed to make a paper which would be read and which would interest and help them. That it has succeeded it has no doubt. It has been loyally supported, and for this support the editor is sincerely thankful.

The editor of the News will spare neither time nor effort to maintain the reputation of the paper for news and reliability for another quarter of a century, well knowing that great labor is the price of excellence. He desires and expects to receive in return for his labors the continued support of the people for whose information and benefit the Big Sandy News is published.

Our people feel very grateful to Congressman Langley for the interest he has taken in our new college and for getting Senator Taylor to come to the Sandy Valley. As the Senator said in opening his address here the only bad thing about Langley is his politics. Whenever may be said on that score, one thing is certain and that is that he is a loyal Big Sandian and always hustling for the promotion of the interests of the Valley and its people, to which end he has accomplished a great deal since he has been in Congress. We would like to see the Tenth represented by a good Democrat, but if the Democrats up there expect to defeat him they had better get busy.

Don't Keep Her About the House.

The following is a verbatim copy of a notice which was posted in a public place in Pikeville recently. To All Whom It may Concern:

You will take notice that I am the owner of a certain wife, Mrs. Nelson Bentley, and that I forbid anybody to keep her about their house under the penalty of being sued. She is a young woman and when last heard of was going up Island Creek. Her dress is the color of green peas and her hat is dyed with diamond dye and trimmed in chicken feathers. So you will take notice that Nelson means business. Nelson Bentley.

Failed in Health

"My mother died six years ago," writes Miss Ruth Ward, of Jerseyville, Ill., "and left me to care for six children. I had never been strong; and this, with the shock of her death, was too much for me.

"I failed in health. I was tired all the time and did not want to go anywhere, nor care for company. I had the headache all the time and such bearing-down pains.

"A very dear friend advised me to take Cardui, as it had done her so much good, so I commenced to use it and now I am in good health."

Take CARDUI

The Woman's Tonic

Women's pains are relieved or prevented and women's strength is quickly restored, by Cardui, the woman's tonic. You yourself know best if you need it, or not.

If you do need it, do not delay, but commence to use it at once. Every day of delay, only lets you slide further down the hill.

Don't wait, then, but begin to take Cardui today, for its use, no matter how prolonged, cannot harm you and will surely do you good.
